Membership Options

***pricing is determined by a 2nd party company managing the live-stream services.**

Based on your personal situation, look at the options for membership and select what is best for you. VIEW HERE TO ACCESS

If you are a parent attending a league, over the course of a fall and or winter schedule, the best option is the 6-month membership.

If you are a parent with multiple children, playing on different days, over the course of a fall/winter league, the best option is the 6-month membership.

If you are just involved in one season league, or series of tournaments (fall, winter, spring, summer), the best option is a 3-month membership.

If you are not sure on how many times you will want to watch, or just coming for a weekend, or single day, the best option is the daily pass.

HOW TO USE

- 1. Purchase membership/log in with your username/password**
- 2. Look at your game schedule provided to you by coach or online.**
- 3. You have all access, all courts.**
- 4. The system allows us to track individuals when they log in, the amount of time per court viewing, etc. This helps us identify when a request comes in with viewing issues, etc.**
- 4. If you have questions, reach out to us at info@powertoplaysports.com and/or owner@powertoplaysports.com.**

At P2P Sports:

2 cameras are on each court

Always depend on the Skycams as your primary source to watch. Sound is not available, but they are hardwired, and will be best viewing.

Sound will be included in the future.

The floor cams are “in addition”, and experimental. Due to the high costs of broadband, service, staffing and additional hardware/equipment, these are in testing-phase. They are remote, and reliant on WIFI connection, vs. hardware, therefore, not as reliable as the Skycams.

SERVICES PROVIDED

During Games Our Staff Is Responsible For:

Visually staying with the game. Our Skyview camera's do not have audio when games are played at P2P Sports. All FLOOR-CAMS, do have audio. They are instructed to show the scoreboards.

There is no play-by-play (this isn't ESPN 😊). Our camera operators are responsible for saying the teams playing, from time to time, score updates, when games start, half-time, and when games are finished.

They are instructed to NOT be on their cell-phones or have personal conversations during the game.

If an issue with a camera stream occurs, they are working with site directors to update, upgrade, and if needed, replace with another camera. There are times where service may be interrupted for a short period of time.

Many times, the issues with viewing are not the streaming service,

rather, the viewers cell phone service, connection speed or viewers error in finding games, and streaming capacity.

If sound is not available on Floor-CAMS, our staff is currently working to correct, and be patient, it will resume.

Once games are completed for a particular weekend, they are published, and available for review for teams to use as a teaching tool and review. [VIEW PAST VIDEOS HERE](#)

Helping Assist A Great Cause

The Live-Stream services help fund our suicide prevention programs, and educational resources for kids in the immediate Windsor area, and beyond. We provide free court time, open gym time, guest speaking engagements, and community functions for youth and high school students looking for a positive resource to make good decisions, while connecting with others. These services are FREE, coming from several resources, one of them which is our live-stream revenue.

Live-Stream Services include the following processes and costs.

1. Yearly/monthly subscription services to server, and hosting company providing Live-Stream services. This includes servers, WIFI hotspots at each location, and band-with connections through our Xfinity cable programs. At any given event, there are 12-24 cameras streaming live throughout all locations.
2. Full-time staff throughout the week who assigns/trains/manages all independent contractors to work the camera's during events.

- 3. Command Center staff during events to manage each employee running camera's, site directors, and assisting customer service inquiries**
- 4. Purchasing and upgrades of camera equipment, I-pads, including hotspot systems.**

If you have questions regarding Live-Stream services, please email us at owner@powertoplaysports.com.
